

The Poplar Adolescent Unit
Therapeutic Education Department

YOUNG CARERS POLICY

Accepted by the Management Committee:	June 2019
Review Date	June 2023

Young Carer Lead	Kathy Johns
Designated Safeguarding Lead	Steph Yates

Definition:

Young Carers are children and young people under 18 years old who provide regular and on-going care to another person who is physically or mentally ill, disabled or misuse substances. Schools need to play a role ensuring they refer identified young carers for an assessment where appropriate.

1. Principles

- 1.1 At Poplar Adolescent Unit we aim to identify Young Carers as quickly as possible
- 1.2 We aim to identify any support they have received and contact them to ensure the link is continued whilst they are with us.
- 1.3 We aim to identify any students who are Young Carers but have not been recognised before and sign-post them to support for their discharge

2. Healthy Schools Benchmarking Descriptors:

- 2.1 Whole school policies in place for young carers.
- 2.2 Training and Awareness for Governors and Senior Leadership Team.
- 2.3 Agree a network of school staff to support the school lead for young carers.
- 2.4 Young carers' issues embedded into wider curriculum and school plans.
- 2.5 There is evidence of identified local external agencies and of established links.

3. Actions

- 3.1 The Education Unit has a member of staff with special responsibility for young carers, this is Kathy Johns.
- 3.2 The Education Unit has a close relationship with 'Supporting carers and families together' (SCAFT) who regularly visit and deliver a group session around young carers, identification and support available.
- 3.3 The Education Unit has referral forms in the department should a student want to self-refer to SCAFT.

- 3.4 The Education Unit respects young carers' rights to privacy and will only share information about them and their family with people who need to know in order to help them, in line with the department safeguarding procedures.
- 3.5 The Education Unit actively supports young carers on an individual basis.
- 3.6 The Education Unit assists in sign-posting students who are reaching the upper age limit to agencies who can support them as young adult carers.
- 3.7 The Education Unit highlights KOOOTH the on-line support for all students including young carers' mental health needs.
